Risk Level: TRUSTED
Recommendation: RECOMMENDED

No summary available.

Section 2: Three Persona Analysis

Consumer Advocate N/A Confidence: N/A Reasoning: As the Consumer Advocate, my job is to find reasons NOT to trust this contractor. Acme Roof Systems Inc presents a complex picture. On the positive side, the evidence strongly supports a long-established, generally well-regarded business: BBB A+ rating with	Fair Arbiter N/A Confidence: N/A Reasoning: Acme Roof Systems Inc presents a strong profile of a long-established, reputable local contractor. The most compelling positive evidence is its longevity (32 years per BBB, 29+ years per website), which is rare in the roofing industry and suggests stability and consistent service. The BBB A+	Synthesizer N/A Reasoning: No dialectic audit data available. Stronger Case: N/A
---	---	--

accreditation since 2001, 32 years in business per BBB, 4.8/5 Google rating with 87 detailed reviews, and no court records or liens found in our searches. The review analysis concluded reviews appear authentic with specific details about employees and projects. However, several significant concerns and data gaps prevent a higher trust score. 1)

****Inconsistent Founding Date Claims**:** The website claims 'Since 1995' (29 years), but BBB shows a founding date of 1993 (32 years). This 2-year discrepancy, while not huge, is a red flag for accuracy in representation. 2)

****Scope Confusion & Potential Review Mixing**:** The company's website heavily promotes full home remodeling services (bathrooms, kitchens, electrical, plumbing), which is unusual for a roofing specialist. Several 5-star Google reviews praise 'Heidi' for a 'full home remodel' - this suggests either the business has dramatically expanded beyond roofing (raising questions about core competency) or reviews from different businesses

rating with accreditation since 2001 and zero listed complaints indicates excellent business practices and customer complaint resolution. Google reviews show a 4.8 rating with 87 reviews, featuring detailed, specific testimonials from repeat customers spanning years (2016 and 2024 mentions), including emotional authenticity and named employees. Yelp shows a solid 4.4 rating with 11 reviews. The review analysis concluded reviews appear 'largely authentic' with 'high' confidence, noting specific details and varied writing styles as authentic signals. No liens were found (score 10/10), and court record searches across four counties returned no cases despite technical search limitations. The company appears in Collin County bid documents (2019, 2020), suggesting government contract work. The website claims 29,253 completed projects, which aligns with a 30-year operation. Red flags have charitable interpretations: No Angi/HomeAdvisor presence could mean

are being mixed/attributed incorrectly. This creates confusion about what the company actually does well. 3) ****Serious Isolated Complaints****: The review analysis flagged specific, serious complaint patterns including 'leaking roofs after installation' and an 'alleged employee misconduct' (assault). While few in number, these are severe failures for a roofing company. A leak after a new roof is a fundamental failure of the core service. 4) ****Data Gaps & Search Limitations****: Critical data is missing. Court record searches for Tarrant and Collin counties failed due to technical errors, so we cannot confirm a clean legal record in their home county. We have no verification of insurance (critical for roofing) or Texas franchise tax status. The OSHA record shows a past inspection (2008), but we lack details. 5) ****High Volume, High Rating Pattern****: While the reviews seem authentic, a 4.8/5 average over 87 reviews is exceptionally high for any contractor, especially in a trade like roofing.

they don't pay for lead services. The OSHA result (2008 inspection) is normal for construction. Some 5-star reviews mention unrelated services (full home remodel), possibly indicating expanded services or review platform attribution errors. The absence of franchise tax data could be a database issue. Overall, the pattern is of an established business with strong community reputation, minimal regulatory issues, and authentic customer satisfaction over decades.

Positive Factors:

N/A

This could indicate excellent service, but it also aligns with a pattern where businesses aggressively manage their online reputation, potentially discouraging or resolving negative feedback offline before it appears. The absence of recent BBB complaints could support this. The positives are substantial and based on verifiable longevity and volume of positive sentiment. Therefore, this is not a 'do not trust' scenario, but a 'trust with significant verification required' one. The inconsistencies, scope confusion, and data gaps mean a homeowner must proceed with caution and independent verification.

Key Concerns:

Inconsistent claims about years in business (website: 1995, BBB: 1993), Business scope confusion - heavily advertises full home remodeling alongside roofing, raising questions about core competency and potential review attribution errors, Specific, serious complaints identified in review analysis: post-installation leaks and alleged employee

misconduct, Inability to verify clean legal record in home county (Tarrant) due to search errors, No verification of insurance coverage or Texas franchise tax status

Points of Agreement

N/A

Points of Disagreement

N/A

Section 3: Red Flags

MEDIUM Business scope confusion: Website heavily advertises full home remodeling services, and some 5-star reviews praise unrelated remodeling work. This requires clarification on core competencies.

LOW Minor inconsistency in claimed founding date (website: 'Since 1995', BBB: 1993).

MEDIUM Critical data gaps: Insurance status and complete court records in home county (Tarrant) could not be verified.

Section 4: Human Annotator Worksheet

Please review the audit data above and provide your independent assessment.

"text": "This review is a long time coming as life got a little in the way, but it is absolutely necessary as would not go without giving this top notch roofing company a five star review (would give more stars if that option was available). After the last major storm in our area (DFW area) I had contacted several roofing companies until I got a return call from Hannah at Acme Roofing and I was sold. Hannah has the most professional, courteous, and accommodating presence and I immediately felt trust in this company. Not only did they come the same day to fix a hole in the roof caused from a large tree limb, but in addition to that did a full inspection of the roof and discovered other damage of which I was not even aware. The whole process was done with total transparency by Hannah and her crew, with thorough explanation of issues, photos taken and showed to me as well as mentioning other things that could be done in the future but not immediately necessary. Work was done super quick with excellent workmanship...very impressive! They were extremely fair in their pricing as I expected it to be so much more expensive. Will keep this company for any roofing needs or other repairs (they do some other types of repairs in addition to roofing). This day and time it is hard to find the customer service that I experienced with this company which was over and beyond. I highly recommend this company as you will not be disappointed. Thanks again Hannah along with your crew for a job WELL DONE!!!",

completed the project within the promised time frame and exceeded our expectations in every way. Heidi was always on time, communicated clearly and consistently throughout the entire process, and was incredibly easy to reach whenever we had questions. She treated our home with the same care and attention to detail as if it were her own. We highly recommend Heidi for any job...her professionalism, dedication, and quality of work are truly unmatched.",

"text": "Jody and his crew at Acme Roofing are the very best. When a storm came through and damaged the roof of our church, Jody had his crew out the very next day to make the emergency repairs we needed. After that Jody helped us through the process of dealing with the insurance company. Now the church has a brand new TPO roof with 4.4 inches of insulation which makes for a much cooler building throughout. Every part of this project was completed with the highest level of professionalism and in a timely manner. If you're looking for a dependable and honest roofing company, these guys are the absolute best in Fort Worth.",

"text": "Update2025: Roof is leaking again from their improper installation! 5th leak!\n\nWhere do I begin, I've been through so much dealing with Acme roofing. I wasn't going to say anything (just never recommend) but after being assaulted by an employee of there's I've just had it with Acme roofing. I was first misled about cost of replacing my roof along with everything else damaged by hail, and eventually worked through that. Then after having my roof replaced I had to deal with not one leaking roof problem but two. My master bedroom ceiling is still stained with water spots and there's various nail pops all throughout the house never addressed. I was told by Acme not to report the leaks to my insurance company, wish I had. They lied to me about the process that would take place. They explained to me that they would remove and replace the wet insulation and treat the wood to prevent mold. Then replace the damaged sheet rock and repaint. That never happened, they actually left 2 buckets of rain water sitting in my attic.

After coming to “fix” my roof leak that was caused from improper installation, the very next rain shower my roof was leaking again in my master bedroom in the very same spot. After weeks of waiting because they kept asking the day prior unexpectedly to come over when I was not home instead of scheduling a day, they finally came for their second attempt to fix the roof. Again leaving rain water in the attic for months, but the most ridiculous thing of all they left the water hose on the side of my house completely turned all the way on, and it leaked for a whole entire month flooding the side of my neighbors and our yard. There’s still mud and no grass growing between our yards till this day. Then months later they finally come to “repair” the water damage. They did not do anything they said they would and became defensive when I asked if they were going to replace the wet insulation, treat the wood to prevent mold, replace the damaged sheet rock, and repaint as they told me during the assessment. They simply painted over the water damage and used ALL of my personal home kit paint instead of buying the paint as they said they would. They even left my house for over an hour claiming it was to “go get paint”. Now I have no paint in my paint kit for touch ups. The cherry on top, I was assaulted yesterday by one of their employees in a apparent fit of road rage. I refuse to do business with a company that employs unstable loose cannons. Y’all are indefinitely FIRED. I will seek another company to finish the job. I do not recommend this company. They will sweet talk their way out of every mistake they make, and trick you into feeling like everything will be fine when they are just buying time. I recommend using Swat roofing that my neighbor used. I wish I had.”,

They have also repaired Sheetrock inside the house due to water damage. We have found all those we have dealt with to be skilled and professional. Furthermore, they stand behind their work and quickly respond to concerns. We have especially enjoyed knowing Mark Knotts. He goes over and above to make sure we have the information to make decisions and help us get the best value possible. He has met with adjusters on our behalf.   "summary": "Reviews appear largely authentic for a long-established (32 years) roofing contractor. The high volume of detailed, specific 5-star reviews from repeat customers over many years is a strong positive signal. The negative reviews, while serious (leaks, alleged assault), are few, specific, and span many years, which is typical for any business. The mention of full home remodels in some 5-star reviews is odd for a roofing company but may indicate expanded services or review attribution errors.",
