Section 2: Three Persona Analysis

Consumer Advocate N/A Confidence: N/A Reasoning: The contractor presents a significant identity and credibility problem. The primary concern is a clear business name discrepancy: the data is for 'BH3 Residential and Commercial Electricians' in Garland, but the website (callw3.com) and Google Maps listing are	Fair Arbiter N/A Confidence: N/A Reasoning: The contractor presents a mixed but generally positive profile. The strongest evidence in their favor is the Google Maps rating of 4.9 with 100+ reviews, which the REVIEW_ANALYSIS assessed as largely authentic. The analysis found specific project details, varied writing	Synthesizer N/A Reasoning: No dialectic audit data available. Stronger Case: N/A

for 'W3 Electric' at a different address in Mesquite, TX. This suggests a potential rebranding, shell operation, or misleading marketing. The Google Maps reviews (4.9/5, 100+ reviews) are overwhelmingly positive and the AI review analysis suggests they are largely authentic, which is a strong positive signal. However, this positive signal is severely undermined by the complete absence of this business entity on all other verification platforms: no BBB profile, no Angi/HomeAdvisor, no Yelp, no corporate registration found via Texas SOS/Comptroller searches, and no court records or liens in the searched counties. The lack of a verifiable corporate entity is a major red flag for a business claiming to operate in Texas. The positive reviews are tied to the 'W3 Electric' identity, not the 'BH3' name we were asked to investigate. This creates a fundamental trust issue: who is the homeowner actually hiring? The worst reasonable interpretation is that this is a business

styles, and credible negative reviews that suggest genuine customer feedback rather than manipulation. The negative reviews describe isolated incidents (scheduling issues, unprofessional conduct) rather than systemic fraud or poor workmanship. The absence of data on other platforms (ANGI, BBB, Yelp) is common for smaller local contractors who may not actively maintain profiles across all directories. The lack of court records, liens, OSHA violations, or environmental complaints across multiple county searches is a significant positive signal, suggesting no history of legal disputes or regulatory problems. The website presents a professional image and lists comprehensive services. The charitable interpretation of missing business registration data (TX_SOS_SEARCH, OPEN_CORPORATES) is that this could be a sole proprietorship or DBA operating under the owner's name rather than a formal LLC, which is legally permissible in Texas. The business appears to be operating

operating without proper registration, possibly using multiple names to avoid a tarnished reputation or legal/financial obligations. The positive reviews may be real for the work performed under the 'W3' name, but the lack of transparency about the business's legal identity is a serious consumer protection concern.

Key Concerns:

Business Identity Mismatch: The name 'BH3 Residential and Commercial Electricians' does not match the operating name 'W3 Electric' found on its website and Google listing. The Garland location also differs from the Mesquite address., No Verifiable Corporate Entity: No record found with the Texas Secretary of State or Comptroller for either 'BH3' or 'W3 Electric', suggesting the business may not be properly registered, which is a basic requirement for operating legally., Complete Absence on Professional Directories: No profile on BBB, Angi, HomeAdvisor, or Yelp. While not definitive, established,

from Mesquite, TX (per Google Maps) rather than Garland, which could explain some data gaps. The primary concern is the limited verification from traditional business directories, but this is offset by the strong, apparently authentic Google reviews and clean legal/regulatory record.

Positive Factors:

N/A

trustworthy contractors typically have some presence on these platforms.

Points of Agreement

N/A

Points of Disagreement

N/A

Section 3: Red Flags

HIGH

Business identity mismatch: The entity name 'BH3 Residential and Commercial Electricians' (Garland) does not match the operating name 'W3 Electric' (Mesquite) found on its website and Google listing. This creates confusion about whom a customer is actually hiring.

HIGH

No verifiable business registration found for either 'BH3' or 'W3 Electric' with the Texas Secretary of State or Comptroller.

MEDIUM

Complete absence on all major professional verification and review platforms (BBB, Angi, HomeAdvisor, Yelp).

Section 4: Human Annotator Worksheet

Please review the audit data above and provide your independent assessment.

Billy walked me through the whole process and explained to me how and what was being done. He also completed another job that my husband requested without question. I would highly recommend this company. I have other jobs in mind that I would like for him to complete in the future. I have finally found someone that gives me peace of mind. He is very knowledgeable about what he's doing. Thank you so much!",

with a home repair service. The entire team exceeded my expectations from start to
finish. The three technicians (including the owner) who came to my home were not
only prompt and professional, but also extremely knowledgeable and helpful in
addressing my electrical issue. What impressed me most was the owner he genuinely
listened to my concerns and made sure everything was handled thoroughly, rather
than just offering quick fixes. Their commitment to quality and customer
satisfaction truly sets them apart. I will gladly recommend this company to anyone
in need of reliable, top-notch service.",

company/electrician is! My son is obsessed with everything electrical and after
helping me to install a new doorbell at our front door, he came up with the
brilliant idea that he needed to have a doorbell in his room. I bought him a chime
and taught him to splice wires, but was not ready to play with high voltage on our
own. My neighbor connected me to BH3, a kind fellow Danny answered the phone and
got us an appointment set up asap. Billy showed up and the guy is nothing but
class, an absolute professional, and an amazing teacher. He took the better part
of an evening patiently showing my sons and our neighbor's son (6, 7, and 8 years
old!!) the step-by-step installation process. The boys got an unforgettable
experience and we were just blown away. And now there is a perfectly functioning
doorbell that rings a few times every day in our upstairs hallway. Thank you so
much, Billy and BH3.\nHIGHLY RECOMMEND!!!!",

I needed this installed in a timely fashion. 3 pm came and went, then I received a text at 4:15 with an estimated price and they asked if I still wanted them to come by?! I stated that my appointment was for 3 pm I was not interested in an estimated price, I needed this installed. My time is important to me and I don't appreciate companies wasting any of it. If they didn't want to send someone out here don't set appointments. I know what the estimated prices are that wasn't a concern for me. I had to rate 1 star because my time was utterly wasted.",
