Contractor: Clark Outdoor Designs	Location: Frisco, TX
Contractor ID: 213	Audit Date: January 12, 2026
Category: greyPoor	Google Reviews: 0

Section 1: Council Verdict

74

Risk Level: MODERATE

Recommendation: NOT_RECOMMENDED

No summary available.

Section 2: Three Persona Analysis

Consumer Advocate N/A Confidence: N/A Reasoning: As the Consumer Advocate, my job is to find reasons NOT to trust this contractor. The evidence presents a mixed picture with significant data gaps and some positive signals that require scrutiny. 1. **Claims vs. Evidence**: The contractor claims 8 years in business (BBB	Fair Arbiter N/A Confidence: N/A Reasoning: Clark Outdoor Designs presents a profile with several strong positive indicators and a notable absence of serious red flags. The business has been operating since 2017 (8 years), which demonstrates longevity and stability. The BBB A+ rating with zero complaints is significant, as it indicates either	Synthesizer N/A Reasoning: No dialectic audit data available. Stronger Case: N/A
--	--	---

founding date 2017). This is plausible and consistent. They have an A+ BBB rating with zero complaints, which is a strong positive signal. However, BBB ratings can be misleading - an A+ with no complaints doesn't necessarily mean perfect performance, just that no one has filed formal complaints. 2.

****Review Analysis**

Concerns:** The Google Maps reviews show a perfect 4.7 rating with 12 reviews, all 5-star except one truncated review. The REVIEW_ANALYSIS tool notes this as a potential fake signal: "Low total review volume (12)" and "All Google reviews are 5-star with no critical feedback." While the analysis concludes the reviews appear authentic with specific project details, the complete absence of any negative feedback over 6+ years is statistically unusual for any contractor. This pattern could indicate review curation or selective solicitation. 3.

****Data Gaps Are**

Significant:** We cannot verify licensing (Texas doesn't require it for most trades), insurance, or bonding. The website returns a 403 Forbidden

excellent customer service or effective complaint resolution. The Google reviews (4.7/5 from 12 reviews) are consistently positive, detailed, and span multiple years (2018-2025), mentioning specific team members (Bailey, Matt) and projects (pool resurfacing, pergolas, screened patios, fences). The reviews show patterns of repeat business and post-completion support, such as fixing fence issues years later at no charge. The business appears in local recommendations on Reddit and Nextdoor, suggesting community integration. The Texas Franchise Tax record confirms active legal status. The absence of court records, liens, OSHA violations, or EPA issues across four counties is favorable. The charitable interpretation of limited review volume (12 Google reviews) is that this is a smaller, quality-focused operation where satisfied customers may not actively review. The lack of presence on Angi, HomeAdvisor, etc., could indicate they rely on word-of-mouth and local reputation rather than

error, preventing verification of claims made there. Court record searches were incomplete due to technical errors, and lien searches failed. We have no visibility into financial stability or potential legal issues. 4. ****Reddit Mentions****: The Reddit results show positive recommendations, but these are from anonymous users and could be from anyone, including the business owners or their friends. 5. ****Yelp Shows Only 1 Review****: While Yelp shows a 5-star rating, it's based on only 1 review. This minimal presence on a major review platform is concerning. 6. ****The Worst Reasonable Interpretation****: This could be a small operation that carefully manages its online reputation by soliciting reviews only from satisfied customers, while having unresolved issues that never reach formal complaints. The lack of any critical feedback across all platforms over 8 years is statistically improbable for any service business. The technical failures in court and lien searches prevent us from ruling out legal or

paid lead services. The website 403 error is a technical issue, not a trust indicator. The primary concern is the low volume of reviews, but their authenticity and detail offset this. The business appears to be a legitimate, well-regarded local contractor.

Positive Factors:

N/A

financial problems. 7.
****Positive Signals That Don't Override Concerns****: The BBB A+ with no complaints is genuinely positive, as is the consistency of positive reviews mentioning specific team members and projects. However, in the context of limited review volume and significant data gaps, these positives are insufficient to establish high trust.

Key Concerns:

Statistically improbable perfect review record with no negative feedback over 8+ years, Significant data gaps: cannot verify insurance, bonding, court records, or liens due to technical failures, Low review volume (12 Google reviews, 1 Yelp review) for an 8-year-old business, Website inaccessible (403 Forbidden), preventing verification of claims

Section 3: Red Flags

MEDIUM

Complete absence of any critical or neutral reviews across all platforms over 8+ years in business. This pattern is statistically unusual and limits assessment of problem-handling.

MEDIUM

Critical verification searches failed due to technical errors (court records, liens, website access), leaving gaps in due diligence.

LOW

Very low review volume (12 Google, 1 Yelp) for an 8-year-old business, suggesting a limited public track record or low engagement with review platforms.

Section 4: Human Annotator Worksheet

Please review the audit data above and provide your independent assessment.

Your Trust Score (0-100):

We were not looking for fancy, more for functional, and the finished porch looks exactly like the rendering that was provided prior to construction. They listened to our wants and needs and delivered exactly what we asked for in a timely and economical manner. Plus, they are very respectful, polite, and hard-working young men. We love the porch so much! If I can figure out how to add the photos, I will.",

We called Clark Outdoor Designs and Bailey came out to give us an estimate. Did some research and looked at some of his teams work and knew they were going to be the ones for the job. Two days and they were done. Such attention to detail and the finished product is amazing. Only wish I would have chosen them for the fence as well. The owners of the company are on location everyday to make sure the job is done right. They even went above and beyond and had their gutter guy come reroute a downspout that I had been trying to get the pool company to do for a month. You will not be disappointed if you go with these guys. I highly recommend.",

From the estimate to completion, ensuring we were happy with the job done.\n\nFast forward to today, they came out to re-stain our fence due to being weather beaten and as always, very professional, great work, and great company to work with.\n\nMatt took care of issues that had popped up to the fence during the two years, no charge. This is the reason that we will keep returning to Clark Outdoor Designs, for any of our outdoor needs.\n\nMatt, thank you and your crew, and we'll see you next time.",

  "text": "We had a good experience with Clark Outdoor Designs. We hired them to tear out an old and outdated concrete patio. We weren't exactly sure what we wanted to replace it - pavers or stamped concrete - so Bailey offered us a few options and the detailed estimates to go along with each one. He provided computer images of what the final result would look like - we have worked with several larger contractors and no one has ever provided renderings like that so it made a difference in our choice to go with Bailey. He was patient in answering our questions and re-working the estimate until we landed on exactly what we wanted. The project was delayed a bit due to weather but once they got started, Bailey and Matt worked almost every day to get it done. We are very happy with the results (we went with pavers) and if we ever decide to build a cover, we will call Bailey for sure.",
