Contractor: Diamond Pools Inc	Location: Keller, TX
Contractor ID: 56	Audit Date: January 12, 2026
Category: greyPoor	Google Reviews: 0

Section 1: Council Verdict

55

Risk Level: MODERATE
Recommendation: NOT_RECOMMENDED

No summary available.

Section 2: Three Persona Analysis

Consumer Advocate N/A Confidence: N/A Reasoning: As the Consumer Advocate, I find significant reasons for skepticism. The contractor claims 'over 20 years' in business and emphasizes quality, honesty, and integrity. However, the evidence reveals a pattern of serious operational problems. The most damning evidence is the detailed, specific	Fair Arbiter N/A Confidence: N/A Reasoning: The evidence presents a mixed but largely positive picture with some legitimate concerns. The strongest positive signal is the 4.8 rating on Angi with 118 reviews, which indicates a substantial volume of satisfied customers. This is corroborated by a 4.1 Yelp rating (25 reviews) and a 3.8 Google rating	Synthesizer N/A Reasoning: No dialectic audit data available. Stronger Case: N/A
--	---	---

negative reviews on Google Maps, which describe consistent issues: performing work without quotes leading to unexpected large bills, poor communication/scheduling, questionable workmanship, high part markups (300% claimed in one review), and unresponsive or defensive handling of complaints. One review explicitly warns 'DO NOT USE these guys.' The REVIEW_ANALYSIS flags these negative reviews as highly credible and specific, while noting the positive reviews are somewhat generic. The significant rating discrepancy is a major red flag: Angi shows a suspiciously high 4.8/5 with 118 reviews, while Google Maps shows a concerning 3.8/5 with only 26 reviews. This suggests possible review funneling to Angi or manipulation. The absence of a BBB profile is not a positive sign; it means they have not engaged with that platform for dispute resolution. While no court records or liens were found (a positive), the court searches had technical errors, limiting confidence. The company is registered with the Texas Comptroller

(26 reviews). The company appears to be a legitimate, established business with over 20 years of experience according to their website, and they have an active Texas franchise tax account (taxpayer number 17517715680). No liens were found, and court record searches across four counties returned no cases, suggesting no major legal disputes. The negative reviews on Google (3.8 rating) are concerning but represent a minority view. The detailed negative complaint about unexpected billing and poor communication is credible, but it's balanced by numerous specific positive reviews mentioning employees by name (TJ, Dylan, Eric, Carlos) and long-term service relationships. The discrepancy between Angi (4.8) and Google (3.8) ratings could reflect different customer segments or review collection methods rather than deception. The business appears to have real operational challenges with communication and billing transparency, but these appear to be

(TX_FRANCHISE), which is a basic legal requirement but not an endorsement. The worst reasonable interpretation is that this is a company with real customers but significant, systemic service and billing problems, potentially using aggressive review management to mask a poor operational track record.

Key Concerns:

Specific, credible complaints about performing work without quotes and issuing unexpected large bills., Significant rating discrepancy (4.8 on Angi vs. 3.8 on Google) suggesting possible review manipulation., Pattern of negative reviews citing poor communication, questionable workmanship, and unresponsive complaint handling., Defensive owner responses to negative reviews, arguing with customers rather than resolving issues., Lack of a BBB profile, avoiding a standardized platform for customer dispute resolution.

service quality issues rather than fraudulent behavior.

What really stood out was their high level of technical expertise – every question was answered thoroughly, and every issue was resolved efficiently. On top of that, their availability and responsiveness are second to none. It's rare to find a place that combines professionalism, warmth, and deep technical know-how so seamlessly. Highly recommended!",

Pool cleaning is barely performed and when complained about, they say their guy was there as per \"their\" GPS. They replaced a pool bulb after which the lens was found broken. They refused to take the responsibility! BEWARE!",

I had several phone conversations with other companies, and left many messages with no return call. Diamond Pools answered the phone, Carlos was VERY professional, personable, treated me with respect, answered tons of questions and put me at ease. They came and serviced pool, checked equipment, and thoroughly cleaned pool and filters. They did such a great job we have them come once a week! Owning a pool is so uncomplicated with Diamond pools at the helm!! PLUS the price for cleaning is lower than most. Great company, we are happy!!!",

He helped me diagnose the problem over the phone and via text. I was able to fix the problem the same day and Carlos asked nothing in return. The service was so good, the least I could do was send Diamond Pools a small check and write a great review!",

  "text": "They charge 3 times as much as the part costs if you buy it
yourself online, and after paying around $240 for them to simply change out my
ignitor, the heater crapped out a couple days later. To which they offered no
compensation. I don't trust this company.\n\nIn response to owner's response:\n\nThe
only reason 3 trips occurred is because the technician didn't listen when he was
told not to arrive without my presence. He came anyways (which the owner
apologized for), and when he called to request entry into the backyard, he was
immediately told to leave.\n\nThe technician was only here for about 45 minutes on
the 2nd visit, and I was charged for double that in labor costs, so the owner is
lying when he says I was only charged for 1 visit. $280 is what they tried to
charge me btw.\n\nI wouldn't have bought the ignitor from these people had I known
they were going to charge me so much. So be careful. Do your research. These
people are in the business of making money, NOT helping you make the best
decision!\n\nThe technician couldn't figure out what was wrong, so he said it was
either the ignitor, or he was going to give an offer on a new heater. So again,
the owner is being ridiculous when he tries to cast blame for my not requesting
further diagnostics. Furthermore, why would I want more diagnostics from an
overcharging company with a technician who doesn't follow instructions very well?
\n\nThey installed a part that crapped out in about 3 days and offered no
compensation. I asked for a refund of the unnecessary ignitor, to which I was
ignored. Horrible company.\n\nOh also, the other company, A-Quality Pools, that
came before them... the reason I was unhappy with them is because they were told
to come over for a quote. I had already gotten a quote from one other company, and
planned to get one more after A-Quality. Well? They came over and just fixed it
without my permission. So much for shopping.",

  "text": "Carlos is a nice guy and his crew members were always nice and
respectful, however, the workmanship of his crew is poor and the communication
with customers is lacking.\n\nThe crew showed up at our house to begin our remodel
without us even knowing they were coming. They just showed up one Saturday to
begin our remodel.\n\nCarlos told us during the construction that his crews are not
paid by the hour. They are paid by the job and the day they were working on our
pool, they still had another job to get done that same day. This may partially
explain why the workmanship is so poor, because the workers were rushed.\n\nThe tile
around our pool is not level and there is a huge grout line above the tile that
looks very bad. We didn't realize what good workmanship our original pool builder
had until we saw the work that Diamond Pools does.\n\nBefore we chose our plaster
color, I asked Carlos if a dark plaster would mottle and he said no. But sure
enough the plaster did mottle and we had boot marks in the bottom of our pool from
the workers walking on it before it was dry. Carlos had his guys do a super
strong acid wash in an attempt to correct the mottling. Initially the mottling
```

seemed to go away, but eventually it returned to it's original condition. And the acid wash left part of the plaster etched and rough.\nCarlos also assured us that the mortar in between the flagstone on our spa spillway would not wash out. But less than a year after the remodel was complete, the mortar had washed out badly. Carlos did honor the warranty, and after several communications from us, he had his crew come and replace the washed out mortar.\nWe cannot recommend Diamond Pools due to the unprofessional result we have with our pool tile and plaster.",
