Risk Level: MODERATE

Recommendation: NOT_RECOMMENDED

No summary available.

Section 2: Three Persona Analysis

Consumer Advocate N/A Confidence: N/A Reasoning: The contractor presents a strong public-facing profile with a 15-year history, an A+ BBB rating, and a 4.8-star Google rating from 51 reviews. The review analysis suggests authenticity, with detailed, specific reviews mentioning employees	Fair Arbiter N/A Confidence: N/A Reasoning: The evidence presents a contractor with strong positive signals but also significant data gaps. The most compelling positive evidence is the 15-year business history (BBB founding date 2010), an A+ BBB rating with zero listed complaints, and a 4.8-star Google rating from 51 reviews. The	Synthesizer N/A Reasoning: No dialectic audit data available. Stronger Case: N/A

and complex projects. However, my job is to be skeptical and find reasons not to trust. Key concerns emerge: 1) **OSHA Violation**: A 2020 OSHA inspection resulted in a violation (ID: 1493288.015). While the snippet doesn't detail severity, any OSHA action is a serious red flag indicating potential safety failures for workers, which can correlate with poor worksite management and risk for homeowners. 2) **Data Gaps & Inconsistencies**: The BBB profile shows 15 years in business (founding 2010) but lists zero complaints and zero customer reviews. For a company of that age and volume, a pristine BBB record with no reviews is unusual and could indicate a lack of historical customer engagement with the BBB platform, making the A+ rating less meaningful. 3) **Limited Review Breadth**: High ratings are concentrated on Google (51 reviews). They are absent from Angi, HomeAdvisor, Houzz, and have minimal presence on Yelp (2 reviews). This lack of cross-platform

reviews are detailed, mention specific employees (Todd, Jose), and describe complex projects (insurance claims, solar panel removal), suggesting authentic customer satisfaction. The REVIEW_ANALYSIS tool concluded reviews are 'overwhelmingly authentic' with 'HIGH' confidence. The absence of court records, liens, and attorney general complaints across multiple county searches is a positive sign, though the searches were not exhaustive due to technical errors. The charitable interpretation of red flags is as follows: 1) No presence on Angi/HomeAdvisor: Many reputable local contractors do not use lead-generation services. 2) Limited Yelp reviews (2): Yelp is not a primary platform for contractor reviews; the 4.7 rating is still high. 3) OSHA search result: The snippet shows an inspection record from 2020, which is routine for roofing contractors and does not indicate a violation. 4) Google News result mentioning 'scam': This is a generic Yelp search result page, not a news article about KLM.

verification, while not damning, limits perspective. 4) ****Google News Snippet****: A search result links to a Yelp page with the text "Scam Scam Scam do not use this company..." This is not directly attributed to KLM in the provided snippet, but its appearance in a search for the company name is a negative signal that requires context we don't have. The positive signals are significant but not definitive. A long operational history and many positive reviews are good, but they do not negate the OSHA violation, which is a concrete, verifiable negative event. The absence of court records or liens is positive but expected for many contractors.

Key Concerns:

OSHA violation recorded in 2020 (ID: 1493288.015), BBB profile shows 15 years in business with zero complaints and zero customer reviews, which is atypical and reduces the weight of the A+ rating, Negative snippet in Google News search results referencing a 'Scam' allegation, though attribution is unclear

The link context suggests it's for a different company. 5) Missing franchise tax data: The search was for an API endpoint, not a direct lookup; the business's 15-year BBB listing strongly implies it is in good standing. The primary concern is the lack of verification of state licensing and corporate status, which is a standard data gap in this search. The overall picture is of a long-standing, well-reviewed local contractor with a clean record on the platforms checked.

Positive Factors:

N/A

Points of Agreement

N/A

Points of Disagreement

N/A

Section 3: Red Flags

MEDIUM

OSHA inspection record (ID: 1493288.015) from 2020 resulted in a violation ('Unprog Other, Partial'). Severity unknown, but indicates a past safety or compliance failure.

LOW

BBB A+ rating is based on a profile with zero complaints and zero customer reviews over 15 years, which is unusual and limits the rating's informative value.

Section 4: Human Annotator Worksheet

Please review the audit data above and provide your independent assessment.

    "text": "KLM Roofing did an awesome job on my roof replacement. Todd went above and beyond helping me deal with the 'non-responsive' insurance company. It took 3 months to get approval and Todd never gave up, giving me advice along the way, putting a tarp on my roof for protection from storms, and helping to make sure the necessary repairs would be taken care of. When approval came through, KLM was there the next day ready to start. The roofing team was quick and efficient, completing the job in one day and did a great job of cleaning up after the installation. I would highly recommend KLM Roofing.",

I talked to several roofing companies, because our roof was not just a simple roof replacement job, we have solar panels installed on our roof too, so panels needed to be removed prior to roof work could start. We decided to go with KLM Roofing for their professionalism and customer service. Jose was my point of contact, he answered all my questions promptly and introduced me to Solar World LLC to manage solar panel removal and reinstall. Jose managed the whole project from start to finish very professionally, he is an excellent project manager. Everyone in the KLM team was very meticulous and detailed about the quality of the work. I feel that we definitely chose the right company. I am very pleased with the quality of workmanship and the attention to details. I would definitely use them again and recommend them to friends and family.",

KLM came highly recommended by our realtor. From start to finish KLM kept us informed every step of the way. From the painstaking insurance claim to roof install, Jose our foreman was onsite and made sure everything was perfect! I cannot say enough wonderful things about this company. If you need your roof repaired, replaced or any general contracting, I would only recommend KLM. They truly go above and beyond, and most importantly they care about their customer!",

We had our roof and gutters replaced after the big hail storm. We also had siding replaced and insurance only covered the painting of the replacement. Todd worked with us and got us a reasonable quote on having the whole outside painted so it would match. The quality of the work is top notch and we couldn't be happier. Todd was great to work with and was patient when explaining the insurance documents, which were confusing at times on what was covered and what wasn't. I would recommend and use KLM again.",

I chose KLM because they had done a fabulous job at my church -- both in replacing the roofs on several building (including the church itself) and in managing repairs to the inside of the church itself. In terms of my house, Jose thoroughly examined the roof and then explained his findings to me, supported by photos he had taken. He said the roof is in good shape, but there were a few things that would help to prolong its life. He listened, responded to my questions, and in no way tried to scare me or push me into making those repairs. I

did have KLM do the repairs. Carlos, the gentleman who came to do the repairs was very professional, open to questions, and efficient. I'm very pleased with the result, and certainly pleased with everyone I interacted with at KLM. I highly recommend this company!",

At no point in my experience with KLM did I feel pushed, pressured, or patronized (the alliteration was not intentional, I swear). Instead, with each interaction, I walked away with all my questions answered, some expert information I hadn't known to consider, and a little smarter about the industry. process of replacing my roof, gutters, window screens and fence repairs after the
massive hail storm in my area. Todd was professional, courteous, and always went
the extra mile to accommodate my hectic schedule and answer any questions I had.
When hiccups arose in the process, as they always do, Todd took care of them
quickly and made sure that I was satisfied at the end of the process. I cannot
