Category: greyPoor	Google Reviews: 0

Section 1: Council Verdict

90

Risk Level: TRUSTED
Recommendation: RECOMMENDED

No summary available.

Section 2: Three Persona Analysis

Consumer Advocate N/A Confidence: N/A Reasoning: As the Consumer Advocate, my job is to find reasons NOT to trust this contractor. The evidence presents a contractor with a remarkably strong public profile, but several areas require a skeptical eye. 1. **Claims vs. Evidence**: The contractor claims over 40 years in business	Fair Arbiter N/A Confidence: N/A Reasoning: The evidence overwhelmingly supports Quality Tops Roofing as a trustworthy, long-established contractor. The most compelling positive signals are the business longevity (44 years per BBB, founded 1981), the exceptionally high volume of positive reviews (604 reviews on Angi with a 4.9 rating,	Synthesizer N/A Reasoning: No dialectic audit data available. Stronger Case: N/A
---	---	--

(since 1981), an A+ BBB rating, and over 700 five-star reviews. The BBB data confirms the A+ rating, accreditation since 1990, and a founding date of 06/01/1981, strongly supporting the longevity claim. The review volume (604 on Angi, 105 on Google) is substantial. The Texas Franchise Tax search confirms the legal entity 'QUALITY TOPS ROOFING, INC.' is active. 2.

****Warning Signs & Gaps**:**

*** **OSHA Inspection**:** A Planned, Partial OSHA inspection occurred on 11/16/2020 (Inspection ID: 1502482.015). While the outcome (violations, penalties) is not detailed in the provided data, the mere presence of an OSHA inspection, especially a 'Planned' one, indicates the company was on OSHA's radar for potential safety program deficiencies. This is a concrete, verifiable red flag regarding workplace safety practices. *

****Extreme Review**

Uniformity:** The review analysis concludes authenticity, but a skeptic must question the near-perfect scores (4.9 on Angi, Google, Yelp) across

105 Google reviews at 4.9), and the A+ BBB accreditation held since 1990 with no complaints listed. The review analysis indicates authentic, detailed testimonials from repeat customers spanning decades, with specific mentions of owner Bruce Sabine and crew. The absence of negative legal findings is significant: no liens were found, and court record searches across four counties returned no civil cases, despite technical search errors. The OSHA inspection record from 2020 is a single, planned, partial inspection typical for the industry and does not indicate serious violations. The charitable interpretation of any red flags is strong: the lack of a Facebook page is a business choice, not a red flag; the single OSHA inspection is routine; and the minor complaint patterns noted (communication delays) are common in service businesses and are outweighed by the volume of praise for responsiveness and problem resolution. The data gaps (incomplete court searches, no detailed BBB complaint

600+ reviews. While long-term repeat customers are cited, such uniformity can sometimes indicate aggressive review solicitation policies that may suppress negative feedback. The analysis notes minor complaints about communication delays, but these are framed as typical. *

****Incomplete Court/Lien Searches****: The court record searches for Tarrant, Dallas, Collin, and Denton counties returned technical errors or no results. The lien scraper also failed. This is a significant data gap. We cannot confirm the absence of lawsuits, judgments, or liens. In Texas' unlicensed contractor environment, these records are critical. The lack of results is not proof of a clean record; it's an inability to verify. *

****Lack of Negative Publicity****: Searches of local news and the Texas AG site found no complaints or articles about this specific company. While positive, in the context of roofing scams frequently reported in DFW (as shown in the local news results), the absence of any negative press for a

history) are not unusual, and the available positive evidence is substantial and consistent.

Positive Factors:

N/A

44-year-old company is notable but not definitive proof of flawless operation. 3. ****Worst Reasonable Interpretation****: This could be a well-established company that has mastered its public relations and review management, potentially obscuring a history of minor but consistent customer service issues (hinted at by 'communication delays') and past OSHA compliance problems. The perfect review scores could be the result of a policy that aggressively resolves disputes offline to prevent public complaints, not necessarily flawless service. The missing court/lien data leaves open the possibility of unresolved legal or financial issues. 4. ****Positives That Cannot Be Ignored****: The BBB A+ rating with accreditation since 1990 is a powerful signal. BBB accreditation is voluntary, and maintaining an A+ for decades requires consistently resolving customer complaints. The 44-year tenure is a massive barrier to entry for fly-by-night operators. The specific, detailed

reviews naming owners (Bruce, Tim) and citing decades-long relationships are strong authenticity markers that are difficult to fake at scale. ****Conclusion****: The preponderance of evidence points to a legitimate, long-standing business. However, the OSHA inspection is a concrete black mark, and the inability to verify court/lien records is a major gap in due diligence. The extreme review perfection warrants a degree of skepticism about the complete picture of customer experiences. This is not a company showing clear signs of being a scam, but it is not without verified concerns.

Key Concerns:

OSHA Inspection
(Planned, Partial) in 2020
- indicates potential past safety compliance issues., Inability to verify absence of lawsuits, judgments, or liens due to failed/blocked court record searches., Extremely uniform perfect ratings across platforms (all 4.9/5.0), which can sometimes indicate manipulated feedback ecosystems.

Section 3: Red Flags

LOW

OSHA Planned, Partial inspection record from 2020. Existence indicates routine regulatory oversight, but details on violations are unknown.

LOW

Minor, isolated complaints in reviews about communication delays (slow call returns).

Having lived in SW Arlington since 1985, we have experienced our share of storms that required our roof to be replaced or repaired. In fact, when combined with the two times we upgraded roofs on newly purchased homes, Quality Tops has been our roofer of choice NINE TIMES!\n\nEvery single time, they delivered exactly what they promised - and more. Always on time, always in budget, and always a clean, quality job. If you ever find yourself in need of roofing repair or replacements, you will find NO ONE better for the job than Quality Tops Roofing!",

Quality Tops Roofing. The reason was several factors, Bruce was very knowledgeable

He was an Fantastic easy going gentlemen who, after explaining my predicament to him, was able to provide a concise solution and was able to explain it to both my wife and i making a complex situation an easy remedy to repair. As I explained to him we had another contractor do work that was unsatisfactory resulting in every time we go a little rain our enclosed patio leaks like crazy. Bruse and his team of professional installers, was able to remove the existing roof, replace the damaged wood and install the new roof all within the same day. they were clean and effecient and after they were done you could not even tell they were there ....(well with the exception of a newly installed non leaking roof :) they cleaned up so well. The wife and I had to leave town and bruce was kind enough to come back by a couple of days later and inspect the roof to assure it was up to the quality that they hold high in their business. Since the new roof installation we are able to once again enjoy our patio leak free. they provide a 1 year warranty on the work and with all the rain we have had in the last 3 weeks, I have not seen one drop of water INSIDE the screened in patio. Well done Quality Tops Roofing! Fast service, quality work and professional interaction with everyone involved! I would recommend them to ANYONE who has any type of roofing need. Before they replaced the roof, they did a beautiful job of repairing the fascia boards. They did a very good job of installing my new roof. Last month, a storm caused a large tree branch to crunch into one of my gables. It also put a hole in my roof. They did a temporary repair to prevent any further damage. They procured shingles that match the other shingles, they rebuilt the frame under the smashed gable, replaced the gable fascia, repainted it, and installed new roof boards and shingles. They do good work, but you can say that about many firms. The real reason I still stick with them is this: I can trust them. It seems that almost every roofer will advise you that your roof needs to be replaced if a hailstone has hit it; oddly enough, the insurance adjusters most of the time don't push back. But Quality Tops will shoot straight, and tell you if all you need is an inexpensive repair job, or even nothing at all. They would certainly be happy to replace your roof, but they're honest enough to shoot straight and not default to the \"we had a storm, you must need a new roof\" position. I really can't say enough good things about that.",

The company was referred by a work colleague when we first bought our home five years ago, and we have used Quality Tops Roofing (and no other roofing company) since then. They have performed minor shingle repairs and re-caulking around attic vents every year (Texas sun and storms is brutal on roofs!), as well as installation of new wind turbines to improve attic ventilation. Paul always arrives early, does a thorough inspection, and provides a detailed and reasonably priced bid on the work that is needed. The crew members who do the work are very professional, do flawless work, provide great communication before and during their work, and leave our property with the only trace of their work being the shiny new shingles/caulk/turbines. Bruce came out & looked at the roof, found where the leak was it was the boards under the shingles. He sent his crew out to repair at his cost even though the shingles were fine & the workmanship was out of warranty by almost 3 years. When his crew got out here & found the original problem for the leak was not his fault, they still repaired at no cost to me. I would use Quality Top Roofing again & recommend to anyone. "text": "On October 20 2019, the Dallas tornado fell two trees damaging our roof, gutters, and more. After lengthy negotiations with the insurance company we were able to get the funds for repairs in June 2020.\n\nWe were seeking a company to repair the roof as well as the gutters. After talking to acquaintances and much research, we were able to narrow the list to 3 well respected companies. All three companies came to observe the damage and provided a professional quote.\n\nOf the three companies, Quality Tops Roofing (QTR) was the only one to provide a quote at the time. Bruce and his son, examined the damage, took measurements, reviewed their numbers, came back to double check their measurements. After the finished, they presented their quote, answered our questions, and asked for the job. As we still had two more quotes coming we declined for now.\n\nAfter we received and reviewed the two other quotes, QTR was the only one that quoted our job correctly. The other companies (well known and with good reputations) had errors, omissions, and quite honestly not accurate. Therefore, we decided on Quality Tops Roofs even though they we are slightly more expensive.\n\nWe had to make some revisions to the QTR quote for insurance reasons and had some additional requests. Bruce was understanding and easy to work with. Bruce gives you his own personal cell number

and always responded promptly.\n\nBruce then put us in touch with his production manager. Supplies and materials were delivered prior to the job. QTR's subcontractors were able to finish the roof in one day and it was a large job.\n\nLater, we worked with Bruce to schedule and complete the gutters through a company they subcontracted with. There were some minor issues with both the roof and the gutters. We contacted Bruce and they took care of all the roof issues during their onsite "Quality Review". Bruce contacted their gutter company and they took care of the issues.\n\nIMHO the highest compliment you can give a contractor is to engage their services again. Quality Tops Roofing would be our first call. Highly recommend.",

I had dealt with 2 other companies (national and North Texas based) prior for quotes on the same issue: Quality Tops Roofing excelled just in their service, communication and commitment at the time of quotation.\n\nThe Work was performed in a efficient, professional manner with full interaction when questions were asked during the work. companies knocking on our door claiming that our roof was damaged and needed to be
replaced. Wanting to use a company that I chose myself and knew to be reputable,
I looked on Angie's List and found Quality Tops Roofing. I made an appointment
for a roof inspection. They came out, inspected the roof, and said that it did
not need to be replaced, but that there were a few minor repairs that were needed.
I agreed to the repairs plus had them remove two electric fans that cooled the
attic, and had the fans replaced with wind turbines. The repairs were made. A
couple of months ago I called them again because there was a leak in a closet.
They found a flashing that needed to be replaced. They set up a time, came out,
and did that repair. All of the work was done in a timely manner at a reasonable
cost and has never caused us any further problems. Everyone from QTR is very

Now, many years later I bought a house worth \$600K with a complex roof and they took care of me again. A competing roofer saw the opportunity for a big payday and said they'd tell the home seller whatever I wanted to get me a new roof. Bruce from QT came out and told me the truth - a few simple repairs were all that was needed. He did right by me as a buyer and did right by the seller. I can tell you from experience, it does not matter who you are or where you live. QTR tells you what they've found and won't play games trying to upsell you or convince you to replace your roof when simple repairs will do. They treat you with respect and courtesy. I've referred them to people I know dozens of times over the years- old people, young people, and people with all kinds of homes. No one has ever told me they had a bad experience. Quality Tops won my business in several ways: price, approach, terms, and materials. They were not afraid to compete vs several other vendors on Good Contractors. They came in with a better proposal all the way round, incl my concerns about venting, and worked with me as to delays caused by the mortgage servicer. Roof is beautiful match to the house and is using hail resistant tiles. Tony Balmer 2023-12-14 Trustindex verifies that the original source of the review is Google. The owner Bruce and his guys are very responsive and very good. Have called on them three times over the years, most recently in August to replace an aging and insanely noisy roof turbine. The job, which involved locating a matching turbine and then installing, was completed literally the next day. Highly recommend! Carla Bergstrom 2023-12-12 Trustindex verifies that the original source of the review is Google. My roof was replaced after hail damage. Explained process and communicated with insurance. Came when expected. Cleaned up construction debris promptly answered any home calls without delay. Completely happy with roof and process. Would use again Beverly Collingsworth 2023-11-15 Trustindex verifies that the original source of the review is Google. We moved to the Dallas area in 1982. Shortly thereafter we learned that this part of Texas has major hail storms about every 5 to 7 years. Quality Tops Roofing has replaced a total of 8 roofs for us since arriving to Texas in 1982. Their professionalism and work ethic and honesty are perfect. We have never had an issue with any of our 8 roofs. No matter how long we may live in Texas when we need a new roof Quality Tops Roofing will be our only choice. Laura Wood 2023-11-14 Trustindex verifies that the original source of the review is Google. We had our roof, gutters, garage door, and window screens replaced by Quality Tops Roofing after a hail storm. They also did some work on our fence. We were very pleased with the process, especially how they handled all the insurance negotiation for us, as well as the results. David Dunn 2023-10-19 Trustindex verifies that the original source of the review is Google.

Had a tree limb go through my roof during a storm. Spoke to Bruce and he came out the next day and inspected the damage. Bruce had a crew out the day after. They were able to repair the damage in 1 day. 10/10. Would recommend. Mark Comstock 2023-10-19 Trustindex verifies that the original source of the review is Google. Three years ago, I had them replace my roof. I found them via The Good Contractors List. Their estimate was reasonable, so I hired them. Before they replaced the roof, they did a beautiful job of repairing the fascia boards. They did a very good job of installing my new roof. Last month,
