Category: clearGood	Google Reviews: 605

Section 1: Council Verdict

60

Risk Level: MODERATE
Recommendation: NOT_RECOMMENDED

No summary available.

Section 2: Three Persona Analysis

Consumer Advocate N/A Confidence: N/A Reasoning: As the Consumer Advocate, I find significant reasons for skepticism. The contractor's primary claim appears to be 'over 15 years' of experience (per HomeAdvisor). However, the evidence reveals concerning patterns. The most critical red flag is the extreme rating discrepancy: Google Maps shows 4.8 stars with 615 reviews, while Yelp	Fair Arbiter N/A Confidence: N/A Reasoning: Scout Plumbing presents a mixed but generally positive profile with significant evidence of legitimate operation and customer satisfaction, alongside some operational concerns. The strongest positive signals are: 1) An A+ BBB rating with zero complaints on record, indicating	Synthesizer N/A Reasoning: No dialectic audit data available. Stronger Case: N/A
--	--	--

shows 2.5 stars with 110 reviews. This magnitude of difference (2.3 stars) is highly unusual and suggests either different customer bases or potential review manipulation. The REVIEW_ANALYSIS confirms this discrepancy and identifies complaint patterns including 'requiring payment upfront before service,' 'pricing concerns/increases,' and 'poor communication/rescheduling.' These are serious operational issues that directly impact homeowners. While the BBB shows an A+ rating with no complaints, this could indicate the business is not BBB accredited and complaints may be handled elsewhere. The Google reviews, while numerous and detailed, contain promotional language mentioning multiple employee names in a style that raises questions about authenticity. The contractor is implicated in a lawsuit (Kathleen Hitt vs. Thomas Frelk, Et Al) where Scout Plumbing Corporation is named under respondeat superior for acts of its employee - this is a concrete legal concern. Positive signals include no liens found, active franchise tax status, and specific positive mentions in some reviews. However, the combination of the lawsuit, extreme rating discrepancy,

effective complaint resolution or prevention; 2) 615 Google reviews with a 4.8 average rating, suggesting widespread customer satisfaction; 3) Specific, detailed positive reviews mentioning employees by name and describing actual plumbing work; 4) Legal registration as 'SCOUT PLUMBING CORPORATION' with Texas franchise tax account; 5) No liens found and no court cases discovered across four counties. The primary concern is the significant discrepancy between Google (4.8/5) and Yelp (2.5/5) ratings, which the review analysis notes as 'different customer bases or potential review management strategies.' However, the charitable interpretation is that Yelp users may be more critical or that unhappy customers disproportionately use Yelp. The review analysis found the content of reviews (both positive and negative) to be authentic, with specific complaint patterns

and pattern of complaints about upfront payments and communication creates substantial risk for homeowners.

Key Concerns:

Extreme rating discrepancy between Google (4.8/615) and Yelp (2.5/110) suggests potential review manipulation or very different customer experiences, Named in a lawsuit (Kathleen Hitt vs. Thomas Frelk, Et Al) under respondeat superior for employee actions, Review analysis identifies pattern of complaints about requiring payment upfront before service, Complaint patterns include pricing concerns and poor communication/rescheduling

about upfront payments and communication that are common in service businesses. The absence from Angi and Houzz could simply mean they don't advertise there. The business appears to be a legitimate corporation with substantial customer volume and generally positive feedback, though potential customers should be aware of the payment practices noted in some reviews.

Positive Factors:

Points of Agreement

N/A

Points of Disagreement

N/A

Section 3: Red Flags

HIGH

Extreme rating discrepancy: 4.8 stars on Google (615 reviews) vs. 2.5 stars on Yelp (110 reviews). This suggests fundamentally different customer experiences or review management.

MEDIUM

Company is named as a defendant in a civil lawsuit (Kathleen Hitt vs. Thomas Frelk, Et Al) under the legal doctrine of respondeat superior.

MEDIUM

Pattern of customer complaints regarding requirements for upfront payment before service, pricing concerns, and communication issues.

Section 4: Human Annotator Worksheet

Please review the audit data above and provide your independent assessment.

    "text": "★★★★ 10/10 – Exceptional Service from Jonathan & Joseph at Scout Plumbing!\n\nWorking with Jonathan and Joseph from Scout Plumbing on our Cadot Restaurant plumbing concerns was an absolutely outstanding experience from start to finish. Their level of professionalism was evident the moment they arrived–punctual, prepared, and ready to tackle every issue with confidence and expertise.\n\nThroughout the project, they demonstrated an incredible work ethic, staying focused, efficient, and thorough with every task. They took the time to explain what they were addressing, answered every question with patience, and offered thoughtful solutions tailored specifically to our restaurant’s needs. Their kindness, respectfulness, and calm demeanor made the entire process smooth and stress-free.\n\nIt’s rare to find a team that blends technical skill with genuine customer care, but Jonathan and Joseph truly delivered on both fronts. Thanks to them, our plumbing concerns were resolved quickly and correctly, and we couldn’t be happier with the results.\n\nIf you’re looking for reliable, skilled, and sincerely wonderful professionals, Jonathan and Joseph at Scout Plumbing are second to none. Highly recommended—a perfect 10 out of 10!",

Their customer service is truly exceptional – Suzanne went above and beyond to help me resolve some login errors and was incredibly patient and friendly throughout the process. Rey was equally impressive – knowledgeable, professional, and efficient in diagnosing and repairing the issue. He explained everything clearly and made sure the job was done right the first time.\n\nTheir pricing was also very reasonable, especially given the high quality of service and expertise they provide. I highly recommend Scout Plumbing to anyone looking for reliable, honest, and professional plumbing work. They've definitely earned a lifelong customer!",

The quote he gave me was actually less than I had anticipated. He did recommend replacing the pipe line in our yard but he did not pressure me to do so. When the job was finished all of our rocks in the garden were replaced and everything was cleaned. I definitely recommend Scout plumbing.",

"text": "If I could give 10 Stars out of 5, I would! I continue to use Scout Plumbing (Lake Dallas) for all of my plumbing Needs. The level of service from the initial phone call with Suzanne to the Service Call with my Technician Ray L. is as perfect as most consumers would want. Straight forward instructions from the initial call to completion of the project. I specifically had a Pipe Leak under my home and into my slab. Suzanne set it up, scheduled the 311 team to review for cables, electrical and gas lines, scheduled a dig crew, scheduled the Tech (Ray L.) and scheduled the Town Inspector to review ... as each group finished their job ... keeping everyone on task. Ray was here, explained what he was going to do, provided details, shared photos to keep me updated and provided the plan for correction and completion. Ray made me feel like he was working on his home and made me very comfortable with his work the completion of his work.

He did all of the little things ... arrived on time, communicated that he would need to turn the water off and gave me and my family time to finish our morning routine before turning the water off ... can you imagine if he hadn't :-0. The work was completed in a day and things are back to normal. I had expectations and Scout Plumbing (Lake Dallas) exceeded them, as they've done on past jobs. I Highly Recommend the Services of Scout Plumbing (Lake Dallas).",

cooling unit installed for our addition on the house.  The crew initially
installed the unit on the side of the house with huge brackets that were an eye
sore without even asking us first.  When we asked them to move it to the ground
they complained and tried to charge us for the extra work.  They left the drill
holes in the mortar.  They installed the unit with about 4' of extra slack in the
tubing.  When we asked if they could shorten it & clean it up they told us they
couldn't.\n\nFast forward 11 months during the freezes we got, the unit stopped
working.  We called a tech to come out and look at it and he told us it was
because the air filter was dirty.\n\nThe unit continued to work improperly so we
had another company come look for a second opinion.  The new company was shocked
to see the entire outside panel wasn't even installed to code.  They also found a
loose wire in the attic hookup that wasn't plugged in correctly.  Lastly, they
trimmed the 4' of extra slack and said that was easy.  We come to find out, the
system isn't working like we thought it should because it was putting itself into
defrost mode.  The new company told us exactly why that was happening after doing
a thorough check of the whole system.  They said the only way to prevent it was to
hook it up to the gas line.  However Scout never told us that was an option when
they installed it.  Do not use this company, they take short cuts and the techs
are lazy.",

  "text": "I cannot speak highly enough about my experience with Scout Plumbing, particularly technician Rey Lomas and Suzanne, who manages the main office in Lake Dallas. After going through a terrible experience with my supposed warranty company (American Water Resources who I DO NOT recommend), my son suggested Scout Plumbing, with whom he has used for his home's plumbing repairs. A phone call was made in the morning and an appointment was made for that afternoon. I had water that was visibly leaking underneath my cement walkway into the front yard down to the sidewalk and into the street. Rey determined a major leak in my Main Water Line. He patiently explained what needed to be done and showed me pictures of the type of work that he would do to get my problem fixed. He gave me two options on how to address the leak and firm quotes for each of those options. Having accepted to get the job started, Suzanne, from the main office, called me to explain the next steps. 811 was called to mark the yard for any electrical and cable lines. Once that was done, the repairs were scheduled and completed within six days.\n\nI was so impressed with Rey's professionalism, knowledge, work ethic, and the way he took the time to explain the process. He dealt with me very professionally and respectfully throughout the course of the job. The yard was put back together and even the sidewalks (the city and mine) were cleared of any debris so that I wouldn't have to do any cleanup after the job was finished. Again, I cannot speak highly enough on Rey's behalf. And I must thank Suzanne, too, for her patience and kindness in the way she treated me. True customer service really does exist with this company and I will definitely be using Scout's for any of my future plumbing needs. Thank you so much!\n\nVery sincerely,\nJude Duniho",
