Risk Level: MODERATE

Recommendation: NOT_RECOMMENDED

No summary available.

Section 2: Three Persona Analysis

Consumer Advocate N/A Confidence: N/A Reasoning: The contractor presents a contradictory profile. The BBB claims 41 years in business (since 1985) and an A+ rating, which is a strong positive signal. However, this is heavily undermined by consistent, specific, and severe complaints across multiple platforms. The review analysis is key: it	Fair Arbiter N/A Confidence: N/A Reasoning: As the Fair Arbiter, I find significant reasons to give Year Round Pool & Spa the benefit of doubt despite concerning patterns. The business has operated since 1985 (41 years per BBB), which suggests survival through market cycles and customer satisfaction over decades. The BBB A+ rating with no	Synthesizer N/A Reasoning: No dialectic audit data available. Stronger Case: N/A

identifies a clear, repeated pattern of failure specifically in ongoing service/maintenance contracts, while acknowledging competence in one-off repairs/supply sales. This is not a case of isolated complaints; it's a documented operational failure in a core service line. The 4.1 Google rating is misleading due to review mix and potential sampling bias. The 3.1 Angi and 1.0 Houzz ratings, though based on fewer reviews, align with the serious negative feedback. The absence of court records or liens is positive but does not negate the chronic customer service and quality control issues reported by multiple homeowners over years. The worst reasonable interpretation is that this is a business with deep-rooted problems in its service department, leading to property damage (staining, broken equipment), financial loss for services not rendered, and significant homeowner distress, all while maintaining a facade of legitimacy through its long history and BBB rating.

complaints listed indicates effective complaint resolution when issues arise. Google Maps shows a 4.1 rating with 70 reviews, suggesting many satisfied customers. The positive reviews are specific and credible: customers praise quick response for chemical startups, knowledgeable staff (Grant, Nicole, Brian), and helpful advice for new pool owners. The negative reviews, while serious, focus almost exclusively on ongoing maintenance/service contracts rather than one-time repairs or sales. This suggests the company may be competent for specific technical work but struggles with service scheduling and communication for recurring appointments—an operational issue rather than a competence or integrity problem. The absence of liens, court cases, or regulatory violations across four counties and EPA searches is significant positive evidence. The low ratings on Angi (3.1) and Houzz (1.0) come from very small sample sizes (12 and 1 reviews

Key Concerns:

Clear, repeated pattern of severe service failures for maintenance contracts: skipped appointments, poor communication, equipment damage, and pool staining., Significant rating discrepancy and negative feedback on non-Google platforms (Angi 3.1, Houzz 1.0) suggesting broader dissatisfaction., Multiple detailed, authentic-seeming complaints describing property damage (stained pool, broken Polaris, exploded chlorinator) and financial loss., Evidence of unprofessional staff behavior and terrible customer service communication from multiple independent reports.

respectively), while Google's larger sample (70 reviews) provides a more balanced view. The Nextdoor mention praises a staff member's knowledge, indicating genuine expertise exists within the company. The contradictory review pattern (excellent for repairs, poor for maintenance) suggests a real but specific operational weakness rather than systemic fraud.

Positive Factors:

Points of Agreement

N/A

Points of Disagreement

N/A

Section 3: Red Flags

HIGH

Multiple, specific complaints of property damage (pool staining, broken equipment) and skipped paid service appointments for maintenance contracts.

MEDIUM

Significant rating discrepancy between Google (4.1/70 reviews) and other platforms (Angi 3.1/12, Houzz 1.0/1), with negative reviews

focusing on core service failures.

MEDIUM

Consistent complaints of terrible communication and unresponsiveness, particularly when problems arise.

Section 4: Human Annotator Worksheet

Please review the audit data above and provide your independent assessment.

Hired this company to clean our pool weekly, what a joke most of the time they didn't clean it worth a darn and never put correct chemicals in . Pool started looking horrible within 2 weeks, fired this company hired a better company, assessment was made that our pool was never treated with proper chemicals. There was always an excuse from the young girl who answers the phone and you can never talk to any type of manager. It was always one excuse or another from this company. This older lady with glasses was not pleasant and acted like I was bothering her. When they did not, I called on Tuesday to make sure that was taken care of this week as my pool is cleaned later in the week. I was assured that it would be taken care of this week. It was not. I spent my one week of vacation unable to get in my pool because it's now green. This company allowed my pool to turn green twice last summer. This time though I specifically called and asked for them to take care of the yellow algae. I was assured my file was pulled and that it would be taken care of. Apparently the full service does not include the pool guys looking at the pool and acknowledging that something is wrong when the pool water is yellow. I tried to call now even though they're closed to leave a message and the mailbox is full. So my guess is that I'm not the only one with these issues. Apparently the full

When the next guy came and went to crank it off it wouldn't bunge. Another guy came out and it exploded on him. He stated it was over filled which in this case was one of the employees who did it. I agreed to pay for the replacement since the price was basically the same as online, but was not explained I would be 115 dollars in labor to install it. If you are familiar with a chlorinator it is 2 tubes that are plugged into it. One slides on with a clamp and another on the flow valve at the top. I could and would have done this if I was told it would cost me 115 dollars for such an easy install. Would not recommend them for service or maintance personally. Shop around is my recommendation.",
